

2-Stroke

KART GRANDPRIX 2T

Providing excellent performance for ultra-high revolutions of over 20,000 rpm, KART GRANDPRIX 2T is specially formulated for racing kart engines. Ester-based and 100% synthetic, KART GRANDPRIX 2T reduces wear and at the same time, keeps engines clean. It is compatible with both stock and tuning classes. Only used for premix lubrication systems. Suitable for all kinds of gasoline engines.

SPECIFICATIONS

Product

KART GRANDPRIX 2T

Feature

100% synthetic ester-based. Racing kart-exclusive-over 23,000 rpm kart lubricant. High lubrication ability.

SAE/DOT Standard

—

Specification

API TC/TSC3 & FMK/1999

Maker's Approval

—

Compatibility

Racing premix lubrication for 2-stroke engines with very high rpm.
