

Forks & Brakes

FORK OIL EXPERT

Light-5W, Medium-10W, Medium-Heavy-15W, Heavy-20W

Fork Oil Expert is Technosynthese (semi-synthetic), hydraulic fluids for any type of telescopic Forks. Four viscosities: Light, Medium, Medium-Heavy, Heavy.

Contains an ANTI-FRICTION additive specially developed by MOTUL, making easier sliding, avoiding drag in the fork.

Stable absorbing in an extended range of temperature, thanks to the base stocks.

Protection of seals : excellent oil / elastomer compatibility.

Anti wear, anti corrosion, anti foaming.

Motul Fork Oil Expert can be mixed to obtain the required absorbing.

Use the exact quantity recommended by the fork manufacturer.

SPECIFICATIONS

Product

FORK OIL EXPERT

Feature

Technosynthese. Protects gaskets and makes sliding smoother. Anti-wear, anti-foam and anti-corrosion properties.

SAE/DOT Standard

Light-5W, Medium-10W, Medium/Heavy-15W, Heavy-20W

Specification

Maker's Approval

Compatibility

All upside-down telescopic front and cartridge telescopic front forks. For Street use.
