TOP GREASE 200

SPECIFICATIONS

Product

TOP GREASE 200

Feature

Highly adhesive and resistant to water, corrosion and rust. Good mechanical stability.

SAE/DOT Standard

—

Specification

—

Maker's Approval

—

Compatibility

Suitable for use on all types of farm, marine and heavy machinery & industrial equipments.

Reinforced with adhesive polymer and extreme-pressure additives, TOP GREASE 200 can be used for the greasing of roller bearings, cables, ball joints and cables under heavy pressure. TECH GREASE 200 works efficiently under high, low and humid temperatures.
