Gears

## DEXRON IID

Specifically adapted for automatic transmissions, torque converters and hydraulic circuits, DEXRON IID conforms to the GM's DEXRON specifications. Featuring anti-wear, anti-corrosion and anti-foam capabilities, this lubricant has been designed for optimum gear shifting - even at low and high temperatures, the lubricant still maintains a stable flow.

### SPECIFICATIONS

**Product**

DEXRON IID

**Feature**

Oil film stability even under high temperatures.

**SAE/DOT Standard**

—

**Specification**

GM DEXRON IID, FORD MERCON

**Maker's Approval**

ALLISON C4, CATERPILLAR T02
