

Gears

TRANSOIL
10W-30 & SAE80

Mineral-based, TRANSOIL is specially formulated for gearboxes with wet clutches in 2-stroke motorcycle engines. With anti-wear, anti-corrosion and anti-foam capabilities, TRANSOIL makes gear shifting smoother. For gearboxes without wet clutches, use GEAR 300, MOTYLGEAR or GEARBOX.

SPECIFICATIONS**Product**

TRANSOIL

Feature

Multigrade lubricant with anti-wear, anti-corrosive and anti-foam properties.
